130 Cicero's Cato Major, or his Discourse of Old Age, with Notes, &c., printed by B. Franklin, 1744

131 Geminus Anatomie, Black Letter folio, half calf

*** In a historical point of view, this book of Anatomical Plates is full of deep interest. It marks the period of the first introduction of copper plate engraving in England; the epoch when medical science, in the very curious and quaint style of Nicolas Wall, first ventured to disrobe itself from the dead languages in which it had been hitherto enshrouded, and the state of anatomical learning previous to the discovery of the circulation of the blood by Harvey. The very earliest book relating to medicine, published in the English language, is believed to be the "Breviarie of Health," by Andrew Borde, in 1547, only five years previous to the publication of the present work by Thomas Geminus, who first introduced copper plate engraving into England, by copying upon copper the anatomical plates originally published in wood cuts at Padua, in 1542, by Vesalius the celebrated Italian Anatomist.

132 Locke's Essay concerning Human Understanding, 2 vols, 8vo, calf. 1710

133 La Tour des Miroris. Paris, 1631

134 Pictorial Half Hours, or Miscellanies of Art, containing many hundred beautiful wood cuts from Pictures of the Old Masters, Sculpture, Delineations of Natural History, Sketches of Rural Scenery, &c. &c., 4 vols. bound in 2, small 4to

*** Nobody understands better than Mr. Knight the great charm of a Picture Book. The Miscellanies of Art will be an amusing companion for any half hour.

135 Knight's Cyclopedia of the Industry of all Nations, embellished with numerous wood cuts of Implements, Machines, Process and Seats of Industry, 1 vol. 8vo, cloth

*** This is a book of Amusement and Instruction, embracing the application of Science and Art to Productive Industry.

136 Knight's Cyclopedia of London, embellished with numerous wood cuts, 1 vol. 8vo, cloth

*** The descriptions before us are peculiarly adapted for those readers who wish to be made acquainted with
